

PAUL DE BRUYCKER

Chairman of the Board of Directors, Indaver

Paul De Bruycker is CEWEP president since 2017.

Paul obtained a Master's degree in bio-engineering at the UGent. He joined Indaver at its start in 1986 and held different management positions before he became CEO of the Indaver-group in 2011. He currently serves as Chairman Board of Directors Indaver.

With a career of over 40 years in the waste industry, Paul is a respected senior expert in waste management and waste legislation. He has contributed to several books and published a large amount of articles that are considered to be references in the environmental field and waste treatment industry. He holds board mandates both in companies and joint-ventures associated with Indaver as well as in federations and associations in the waste treatment and chemical industry. He is chairman of Vlaanderen Circulair, a partnership of the government, companies, civil society, and the knowledge community that together form the Flemish transition platform to the circular economy.

Indaver is a leading European waste management company specialised in the treatment and management of industrial and municipal waste. With 2000 employees Indaver generates a turnover of 650 mio EUR and manages about 6 million tonnes of waste.
