

## **VANESSA FAKRA**

Director Regulatory Affairs, Kanadevia Inova

Vanessa Fakra is the Director of Regulatory Affairs at Kanadevia Inova, where she advocates for sustainable waste management through Waste-to-Energy and biogas solutions at both the EU and global levels.

A Centrale Supélec engineer with a CEIBS eMBA, she brings 20 years of international experience from EDF, including senior leadership and strategic roles across nuclear and thermal energy assets. Passionate about sustainable waste topics, Vanessa is dedicated to bridging technical innovation with effective policy to drive the global energy transition.
